

Shevington Parish Council
Clerk's Report to the Meeting of the Council – 24 January 2024

Christmas Decorations

All 2023 Christmas decorations and associated structures have been removed and have gone into storage. We are now awaiting information from the Street Lighting officer about new designs and costing options for lamp standard motifs.

I have met on site with a local contractor to discuss improvements to the fencing and am awaiting information about possible costs.

Winter Gritting

The company that provides gritting services has visited Parish Council sites three times this month to undertake gritting. Two of the occasions were pre-ordered, the third was in lieu of the first occasion, when they were unable to grit because all of Shevington was in gridlock due to the snowfall and accidents (both minor and major) associated with it and they were asked by the Police to turn back.

Community Ownership Fund

The Parish Council's expression of interest has been accepted and we have been invited to apply for a grant from the Fund.
